EDUCATION

Northeastern University

Boston, MA

Candidate for BS in Computer Science and Mathematics

May 2028

Honors and Activities: Undergraduate Excellence for Khoury Research Showcase, Girls Who Code, Generate

GPA: 3.58

Relevant Coursework: Algorithms (Graduate-level), Object-Oriented Design, Introduction to Databases, Linear Algebra, Web Development, Software Engineering

PROFESSIONAL DEVELOPMENT & LEADERSHIP

Generate Product Development Studio: Toggo, Northeastern

Boston, MA

Software Engineer

Jan 2026 - Present

- Developing cross-platform trip planning mobile app using **React Native**, **TypeScript**, and Expo for iOS/Android
- Building **Go** backend with Fiber framework, PostgreSQL database, and RESTful APIs with Swagger documentation
- Implementing **CI/CD** workflows with Docker containerization, automated testing, and Git version control

AI Clinic for Small Businesses, Northeastern Oakland

Oakland, CA

Student Advisor

Feb 2025 - March 2025

- Created AI marketing tool training (Canva, Adobe) to support small local businesses in the Oakland-area
- Provided curriculum development insights for adapting program into a Northeastern Oakland campus course

Girls Who Code, Northeastern Oakland

Oakland, CA

Marketing Manager

Jan 2025 - April 2025

- Developed promotional strategies to grow weekly club attendance and engagement
- Assisted planning for a campus-wide event promoting women in computer science

PROJECT EXPERIENCE

Pediatric Psychologist Training Database

Oakland, CA

Project Team Member

March 2025 - April 2025

- Designed Undergraduate Excellence Award-winning project at Northeastern's Khoury Project Showcase
- Developed **MySQL** queries for session tracking based on supervisor needs, enabling monitoring of progress
- Integrated **OpenAI API** to simulate pediatric patients for therapist interactions via **React/Flask** application

Doodle Earth

Boston, MA

Project Team Member

Sept 2025 - Nov 2025

- Developed platform connecting artists with clients for geographically-tagged custom artwork commissions
- Architected **Supabase** database schema for user profiles, image storage, and commission management
- Built **React** interface with **Mapbox GL JS** for location-based art commission discovery and claiming

Co-op Scout

Boston, MA

Project Developer

Nov 2025 - Present

- Built full-stack job aggregator with **React/TypeScript** frontend, **Python** backend, and **Supabase** database
- Developed **Python Selenium** web scraper that collected and stored co-op postings from university portal
- Implemented user authentication with magic link verification and designed Row Level Security policies

RESEARCH EXPERIENCE

The Mills Institute, Northeastern University Oakland

Oakland, CA

Research Assistant

Jan 2025 - April 2025

- Compared **Qiskit** and **Pennylane** for quantum machine learning classification on medical datasets
- Presented comparative analysis on quantum frameworks at Khoury Undergraduate Research Showcase

Argonne National Laboratory (ANL) & Independent Capstone Research

Lemont, IL

Researcher

Aug 2023 - April 2024

- Conducted concurrent materials research at ANL on PFAs filtration and independent algorithmic research comparing human vs. Quantum Approximate Optimization Algorithm (QAOA) performance
- Presented PFA research findings at ANL conference to industry professionals and academic peers

WORK EXPERIENCE

Barrel House Social

LaGrange, IL

Service Assistant

May 2022 - June 2025

- Maintained high levels of efficiency and coordination in a dynamic, customer-focused environment
- Supported teamwork between front and back of house staff to enhance service delivery

TECHNICAL SKILLS

Languages

Java, Kotlin, Python, TypeScript, Go, HTML, CSS, JavaScript

Technologies

Git, IntelliJ, LaTeX, Visual Studio, Supabase, PostgreSQL, React, React Native, MySQL, Vite, Docker
