Olivia Hill

hill.ol@northeastern.edu | (708) 264-2820 | Boston, MA | home-directory.vercel.app | linkedin.com/in/olivia-hill0 | github.com/hill-ol

EDUCATION

Northeastern University Boston, MA
Candidate for BS in Computer Science and Mathematics *May 2028*
Honors and Activities: Undergraduate Excellence for Khoury Research Showcase, Generate, Girls Who Code GPA: 3.6
Relevant Coursework: Algorithms (Graduate-level), Object-Oriented Design, Introduction to Databases, Linear Algebra, Web Development, Software Engineering

PROFESSIONAL EXPERIENCE

Chewy Boston, MA
Software Engineer Co-op June 2026 - Present

- Building split-order prescription flow for Rhapsody veterinary software, letting vets fill one order across in-house, outside, and Chewy.com pharmacies
- Aggregated order data from **REST** and **GraphQL** endpoints into TypeScript components within Chewy's internal component library

Generate Product Development Studio Boston, MA
Software Engineer, Toggo Jan 2026 - Present

- Developed cross-platform trip planning mobile app using **React Native**, **TypeScript**, and Expo for iOS/Android
- Built **Go** backend with Fiber framework, PostgreSQL database, and RESTful APIs with Swagger documentation

Software Engineer, Tomoji

- Building a web-app for a two-sided marketplace connecting developer-tool companies with creators for sponsored UGC campaigns, partnering with a startup client
- Developed CRUD APIs for campaigns, payments, and dispute resolution using TypeScript and Supabase

AI Clinic for Small Businesses, Northeastern Oakland Oakland, CA
Student Advisor Feb 2025 - March 2025

- Created AI marketing tool training (Canva, Adobe) to support small local businesses in the Oakland-area
- Provided curriculum development insights for adapting program into a Northeastern Oakland campus course

PROJECT EXPERIENCE

Pediatric Psychologist Training Database Oakland, CA
Project Team Member March 2025 - April 2025

- Designed Undergraduate Excellence Award-winning project at Northeastern's Khoury Project Showcase
- Developed **MySQL** queries for session tracking based on supervisor needs, enabling monitoring of progress
- Integrated **OpenAI API** to simulate pediatric patients for therapist interactions via **React/Flask** application

Co-op Scout Boston, MA
Project Developer Nov 2025 - Present

- Built full-stack job aggregator with **React/TypeScript** frontend, **Python** backend, and **Supabase** database
- Developed **Python Selenium** web scraper that collected and stored co-op postings from university portal
- Implemented user authentication with magic link verification and designed Row Level Security policies

RESEARCH EXPERIENCE

The Mills Institute, Northeastern University Oakland Oakland, CA
Research Assistant Jan 2025 - April 2025

- Compared **Qiskit** and **Pennylane** for quantum machine learning classification on medical datasets
- Presented comparative analysis on quantum frameworks at Khoury Undergraduate Research Showcase

Argonne National Laboratory (ANL) & Independent Capstone Research Lemont, IL
Researcher Aug 2023 - April 2024

- Conducted concurrent materials research at ANL on PFAs filtration and independent algorithmic research comparing human vs. Quantum Approximate Optimization Algorithm (QAOA) performance
- Presented PFA research findings at ANL conference to industry professionals and academic peers

TECHNICAL SKILLS

Languages Java, Kotlin**,** Python, TypeScript, Go, HTML, CSS, JavaScript
Technologies Git, IntelliJ, LaTeX, Supabase, React, React Native, MySQL, GraphQL, Vite, Vitest, Docker
